Architectural Fibreglass Mouldings

UK manufacturers of effective, durable GRP roofing and building systems.

Our GRP products are built to withstand the most extreme weather conditions and require no maintenance after installation, only require a simple wipe to revive its finish.

Our extensive range of fibreglass doors are available in a variety of sizes and colours to meet your projects requirements.

With over twenty five years experience in the business of providing quality doors and systems, we have found that only a GRP door can endure whatever the environment throws at it.

Choosing a GRP Binstore or Outhouse door not only makes your property look good, but it will also provide a level of product durability and safety that others cannot achieve. The proven performance level of all of our GRP products means that investing in even the smallest of items will protect you and look superb for the long term.

Outhouse GRP Door & Frame

Our maintenance free self coloured GRP skinned door, means repainting will never be necessary.
